Update on TNWG Emergency Services in 3 minutes or less...

Last Exercise – We have completed the last exercise of the Fiscal Year. We had 73 people turn out at MBT and SNH. That is the biggest turnout of the year. We had ground teams at both locations and flew 50 sorties. We qualified 2 new mission pilots and they got their first actual find on the same day. Thank you all for coming out.

Training Calendar – Please look over the Training Calendar for the coming Fiscal Year. Depending on our budget allocation we will be executing any SAREX that occurs before we are funded as a tabletop. A Full Gieep class will be held at the ES school along with staff and crew training.

Staff Quals – I think we have the operations side well in hand. We need to put some serious effort into staff training. We have far too few staff people doing all the work. If we get more staff trained, then no one will have to do it all the time. Please continue to work on staff Quals and if you need a trainer for a particular staff position please let me know. Our staff turnout has been poor at the last few exercises. If we don't get sufficient staff for an exercise in the future we may have to cancel an otherwise successful training opportunity.

IMU Changes – There is an announcement on E-services that discusses upcoming changes to the WMIRS / IMU interface. In a nutshell we have gotten everything we wanted. NHQ will distribute IMU from the national site and WMIRS / IMU integration will become seamless. I have already been contacted by other wings interested in training on IMU with us. Look for big improvements in the integration area soon.
