

ES Data Burst October 2012

Update on TNWG Emergency Services in 3 minutes or less...

FY2013 Has Begun – We have received our initial budget allocation and it is low. Our budget is only \$4800 for the first quarter. We will be working with group staff members to get the maximum benefit out of the events we have scheduled for the first few months of the year.

Training Calendar – Please look over the revised Training Calendar for this Fiscal Year. Our budget issues will force us to apply partial funding or reschedule in some cases. Pre-registration will be more important than ever to allow for planning with reduced funds.

IMU Changes – There is an announcement on E-services that discusses upcoming changes to the WMIRS / IMU interface. In a nutshell we have gotten everything we wanted. NHQ will distribute IMU from the national site and WMIRS / IMU integration will become seamless. I have already been contacted by other wings interested in training on IMU with us. Look for big improvements in the integration area soon.
