

ES Data Burst JULY 2013

Update on TNWG Emergency Services in 3 minutes or less...

SAREX in Springfield – July 19 – 22 2013. The next exercise Springfield TN at M91 airport and Cheatham Wildlife Management Area. We have \$3500 in funding for this one and we need to see as many airplanes and ground teams there as possible. There will be an ICP at Springfield/Robinson Co. Airport (M91) and ground training at the Cheatham WMA site. Please see the event web page at <http://sites.google.com/a/tncap.us/springfield-sarex/> to register and for all the details of the training. This should be a great event for ground teams.

SAREX in Morristown – July 26 – 29 2013. The following weekend is a SAREX in Morristown. There is \$3500 allocated for this exercise as well. See <http://sites.google.com/a/tncap.us/morristown-sarex/home> for details and to register.

Upcoming events – The calendar below is our current schedule. Please notify me sooner rather than later if there is any conflict between this ES calendar and other events.

FY14 Calendar – We had our schedule setting meeting and produced our calendar for FY14. It will be posted to the web site and available as a PDF file.

Budget Status – We have received all the funding we requested for the year and then some. We are entering the part of the fiscal year where NHQ pulls back money from our exercises rather than returning it to our training budget. It is more important than ever to have high participation in exercises. We are currently 21% below our target to use our entire budget for the year.

Budget Status				
Allocated	Expended	Remaining	FY % Done	% of Target
\$ 40,649.71	\$ 14,355.72	\$ 26,293.99	78%	-21%
