

ES Data Burst September 2013

Update on TNWG Emergency Services in 3 minutes or less...

End of the year – Now that the fiscal year is over its stats time. Overall we did about as well as last year although we did lose some ground. Last year we spent around \$38,000 on training. This year we received \$42,000 in funding but only spent \$33,000. Receiving all of our funding in the middle of the year makes it hard to space out the exercises. Next year we will try to spend more at the beginning of the year to stick to the schedule more closely.

TN Wing GIIEP Kit – We have received the laptop portion of our GIIEP kit. The rest is slated to be purchased in the big push that national does at the end of the year. We had a good training session at the ES school in Sparta. We will be focusing on GIIEP training throughout the year as it is an important new technology for our customers.

Upcoming Event – The Oak Ridge Emergency Management Forum is coming up on Thursday Sep 26th. Their page <http://www.oakridge.doe.gov/external/Home/PublicActivities/EmergencyManagementForum/tabid/307/Default.aspx> has details of the event. We will be displaying the Group 1 MCP and the Wing Antenna Van outside as well as having a booth inside. Members need to register separately for the conference (\$0 cost).

Wing Conference – The Tennessee Wing conference is coming up on the 27th and 28th. There will be an ES presentation on how we did this year and our plans for next year. Hope to see you there.

FY2014 Calendar – The 2014 ES event calendar is set and loaded on the Wing Web Page at <http://tncap.us/> Please be sure to check before scheduling local events as schedule conflict has been a problem for much of this year.

Budget Status				
Allocated	Expended	Remaining	FY % Done	% of Target
\$ 41,881.55	\$ 33,246.48	\$ 8,047.64	100%	81%
